

SEA BEYOND STUDENTS AND PROFESSORS' VOICES

“

We must create awareness
within communities
on marine pollution.
All together we will be better.

Bruno Silva

Agrupamento de Escolas de Vialonga,
Portugal

“

Increase the responsibility and the awareness of conservation depend on you, on all of us.

Leonor Castro

Agrupamento de Escolas de Vialonga,
Portugal

“

Thanks to SEA BEYOND,
I learned how to take
the right steps to help
and save our planet.

Irís Atende

Agrupamento de Escolas de Vialonga,
Portugal

“

Through the SEA BEYOND, programme, we discovered how air pollution affects ocean's health.

Jessica Martin
Alberta Carraro

Liceo Benedetti Tommaseo,
Venice (Italy)

“

Never stop trying
to better our environment,
because without it
none of us would exist.

Kayla Labuschagne

Protea Heights Academy,
Cape Town (South Africa)

“

We need to learn to sustain
and conserve the ocean.
And together we
can make a difference.

Daniella Wood

Protea Heights Academy,
Cape Town (South Africa)

“

Students care deeply about the ocean and want to do something to conserve natural resources .

Carmen Glenn

Science Teacher,
New Rochelle High School,
New York City (USA)

“

We must encourage the new generations to create awareness of their own ecological commitment.

Jesus Fernandez

Junior High Principal,
Colegio Latino,
Mexico City (Mexico)

“

Ocean's future is in the hands
of next generations.
They must be trained
towards more ethical choices.

Elia Martins

Science Teacher and Coordinator
of the Blue School Programme,
Agrupamento da Escolas Anselmo de Andrade,
Almada (Portugal)

“

It's important to promote sustainable behaviours. Young people's enthusiasm like the sea, is boundless.

Francesca Boscolo

Science Teacher,
Liceo Benedetti Tommaseo,
Venice (Italy)
